# Scholarship Program

## Overview

Our mission is to educate every individual in the world to be empowered to take back control of their money and their financial system, regardless of their current financial situation. We are a family helping each other when needed.  Everyone in the world needs this life-changing education and opportunity.

There are some people in the world bearing unfathomable hardships that thirst after the truth and are hungry for an opportunity to succeed and bless their families. For this purpose, we have created the TPFN Scholarship Program.

## Helping Hand Scholarship

The Helping Hand Scholarship is for people that are truly needy and have exhausted every financial option for their $10 monthly tuition.  If they show a true desire to complete the education and share it with others, they can qualify for the Helping Hand Scholarship, which includes the $50- Enrollment Package and/or the $10 Starter Package for one year ($170 value) to be re-evaluated annually.

## Charity Scholarship

The Charity Scholarship is for non-profit organizations that seek to educate and empower their membership to take back control of their money and their financial system. These charities will be able to create a recurring revenue stream as a perpetual fundraiser for their organization. These non-profit organizations are eligible for the Charity Scholarship, which includes the $50-Enrollment Package and the $80 Gold Package for one year ($1010 value).

## Qualification

Scholarship candidates should first register at TPFN with their sponsor's referral link. Then their sponsor must submit a "Scholarship" support ticket to request a scholarship. They should describe the current hardship or the fundraising needs of the organization. Next, they should describe the plans and commitments for promoting TPFN to their community.

## Bonuses

No bonuses are paid on scholarship package for the organization but are paid on all their referrals. The annual re-evaluations will consider the diligence of completing the education and the TPFN earnings for the individual or organization.
