Shopping Discounts and Cashback Rewards

Overview

TPFN provides several shopping services to help you stretch your dollars. Some of the shopping services provide discount savings and others provide cashback rewards. All three shopping services are provided by TPFN strategic partners that each manage a separate member account for you.

Member Deals

Member Deals provide special member discounts on exclusive entertainment and travel offers. They provide some shopping deals, but they are primarily focused on ticketed events and reservations. Member Deals are available to all members with a paid monthly subscription.

Click the “Member Deals” button in your back office. You will be initially asked to provide your email address to create a Member Deals savings account and to receive email notices of special deals. You can skip the Sign Up process by clicking the “No Thanks” link at the bottom of the Sign Up page. Some of the entertainment and travel deals require you to set up an account.

Member Deals are only accessible from your TPFN Back Office with the Member Deals website.

Premium Savings Club

The Premium Savings Club provides special member discounts on shopping, dining, travel, and other consumer services from over 1.3 million big-box and local merchant deals. The Savings Club is a premium service that requires a $24 annual activation fee that provides access to both the Premium Savings Club and the Premium Cashback Rewards.

Member Deals are available to all members that pay the $24 annual activation fee and have a paid monthly subscription.

You can access your Premium Savings Club from your Back Office by clicking the “Premium Shopping” button. A popup page will give you access to both the Savings Club and the Cashback premium shopping services. Click the Shopping Cart picture to Access YOUR Premium Savings Club. Your Savings Club account will be automatically set up for you with your member number, first name, last name, and email address. When you access your Savings Club, you will have the option to create a password.

The Premium Savings Club is accessible from your TPFN Back Office with the Savings Club website. You can also install a Mobile App by searching on the Apple/Google App Store for the name "My Deals Mobile" from Access Development. You must first access your Premium Saving Club website from your back office to set up the account. Then you can sign Up on the Mobile App using your email address in your TPFN back office.

Premium Cashback Rewards

The Premium Cashback Rewards provides special member cash back on shopping, dining, travel, and other consumer services from over 350 big-box merchants. The Cashback Rewards is a premium service that requires a $24 annual activation fee that provides access to both the Premium Savings Club and the Premium Cashback Rewards.

Cashback Rewards are available to all members that pay the $24 annual activation fee and have a paid monthly subscription.

You can access your Premium Cashback Rewards from your Back Office by clicking the “Premium Shopping” button. A popup page will give you access to both the Savings Club and the Cashback premium shopping services.

The first time, an account will be initialized with your member number, and an invitation code will be displayed. Copy the invitation code and click the Cashback REGISTER picture to set up your cashback account. You will be asked to enter the invitation code, and afterwards you will be required to set up all your account details including a credit/debit card for your purchases.

After you complete setting up your Cashback Rewards account, you can click the “Already Registered?” button in your TPFN Back Office Shopping Services page to activate access to your Cashback Rewards account.

The Premium Cashback Rewards is accessible from your TPFN Back Office with the Cashback Rewards website. You can also install a Mobile App by searching on the Apple/Google App Store for the name "ShoppingBoss" from ShoppingBoss.com. You must first register your Cashback Rewards account with the specified one-time invitation code. Then you can sign in to the Mobile App using your specified username and password.

How Cashback Rewards Work

Our Cashback Rewards partner has arrangements with all the big-box merchants to pay with their merchant gift cards. You will pay the merchant bill from your Cashback Rewards website or mobile app by purchasing a gift card for the exact amount with your credit/debit card on file. This all happens automatically in the background. The merchant will be able to scan the gift card QR Code or enter the gift card number.

After the purchase is made, your Cashback Rewards account will be immediately credited with the cashback percentage offered by the merchant. You can accumulate your cashback rewards and use them later for any merchant purchase, or you can request the rewards be transferred to your bank account.

You can store multiple credit/debit cards on your Cashback Rewards account to be used as desired with each merchant purchase.

Double Dipping

It is possible to double your benefit on a single transaction. Many big-box merchants are in both the Premium Savings Club and the Premium Cashback Rewards.

For example, Applebees offers a 10% Savings Club discount and a 6% Cashback Reward. If your Applebees bill was $100, you would get a 10% discount down to $90, and a 6% Cashback Reward on the $90 of $5.40, for a total of $15.60 from the $100 purchase.

You can actually triple dip if your credit card on file with your Cashback Rewards account also offers its own loyalty rewards.

Merchant Loyalty Rewards

Some big-box merchants, like hotels, offer their own frequent customer loyalty rewards. When you register at the hotel, just ask the clerk checking you in, if you can add your loyalty rewards number to your reservation. They usually will with no problem.

$24 Activation Fee

TPFN pays almost all the revenue back to its members. That leaves very little revenue for extra things like the Premium Shopping Services. TPFN has negotiated a wholesale volume price from its strategic shopping partners and passes that price directly on to our members. It works out to be about $2 per month, which is only 10% of what other companies that are using our exact same shopping partner are charging. TPFN makes no profit and pays no bonuses on the $24 activation fee.
